Title	PURCHASING
Code	po6320
Status	Active
Adopted	November 11, 2013
Last Revised	March 14, 2016

6320 - **PURCHASING**

Procurement of all supplies, materials, equipment, and services paid for from District funds shall be made in accordance with all applicable Federal and State statutes, Board policies, and administrative procedures. Standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts are established in Policy 1130, Policy 3110, and Policy 4110 – Conflict of Interest.

All procurement transactions shall be conducted in a manner that encourages full and open competition and in accordance with good administrative practice and sound business judgment.

Each year the State of Michigan informs the School of the legal amount for purchases which require a formal bidding process of a single item.

It is the policy of the Board that the Superintendent adhere to the following:

A. seek informal price quotations on purchases that are under fifty percent (50%) of the amount allowed by State statute for a single item, except in cases of emergency or when the materials purchased are of such a nature that price negotiations would not result in a savings to the School.

B. When the purchase of, and contract for, single items of supplies, materials, or equipment is in excess of fifty percent (50%) but less than the amount allowed by State stature the Superintendent shall whenever possible, require three (3) competitive price quotations.

Purchases in a single transaction that are in excess of the dollar amount permitted by State statute shall require competitive bids and, whenever possible, have at least three (3) such bids for substantiation of purchase and shall require approval of the Board prior to purchase.

Competitive Bids

Competitive bids are not required for items purchased through the cooperative bulk purchasing program operated by the Michigan Department of Management and Budget pursuant to M.C.L. 18.1263 and Oakland Schools or other national cooperative agencies.

Competitive bids are not required for food purchases, unless food purchased in a single transaction costs $100,000 or more.

Bids shall be sealed and shall be opened by the Superintendent/designee in the presence of at least one (1) witness. All orders or contracts should be awarded to the lowest responsible bidder; however, consideration can be given to:

Before placing a purchase order, the Superintendent shall check as to whether the proposed purchase is subject to bid, whether sufficient funds exist in the budget, and whether the material might be available elsewhere in the school. All purchase orders shall be numbered consecutively.

In the interests of economy, fairness, and efficiency in its business dealings, the Board requires that where the requisitioner has recommended a supplier, the Superintendent may make alternate suggestions to the requisitioner if, in her/her judgment, better service, delivery, economy, or utility can be achieved by changing the proposed order; upon the placement of a purchase order, the Superintendent shall commit the expenditure against a specific line item to guard against the creation of liabilities in excess of appropriations.

The Superintendent shall determine the amount of purchase which shall be allowed without a properly signed purchase order. Employees may be held personally responsible for anything purchased without a properly signed purchase order or authorization.

The Board may acquire office equipment as defined in law by lease, by installment payments, by entering into lease-purchase agreements, or by lease with an option to purchase, provided the contract sets forth the terms of such a purchase.

Procurement – Federal Grants

The Superintendent shall maintain a procurement and contract administration system in accordance with the USDOE requirements (34 C.F.R. 80.36) for the administration and management of Federal grants and federally-funded programs. The District shall maintain a compliance system that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of this policy and administrative guidelines (AG 6320).

Title	PROCUREMENT – FEDERAL GRANTS/FUNDS
Code	po6325
Status	Active
Adopted	November 14, 2016
Last Revised	January 14, 2019

6325 - **PROCUREMENT – FEDERAL GRANTS/FUNDS**

Procurement of all supplies, materials, equipment, and services paid for from Federal funds or District matching funds shall be made in accordance with all applicable Federal, State, and local statutes and/or regulations, the terms and conditions of the Federal grant, Board of Education policies, and administrative procedures.

The Superintendent shall maintain a procurement and contract administration system in accordance with the USDOE requirements (2 CFR 200.317-.326) for the administration and management of Federal grants and Federally-funded programs. The District shall maintain a contract administration system that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of the District's documented general purchasing Policy 6320 and AG 6320.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, award, and administration of contracts as established in Policy 1130, Policy 3110 and Policy 4110 – Conflict of Interest.

The District will avoid acquisition of unnecessary or duplicative items. Additionally, consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allowability of each purchase made with Federal funds.

To foster greater economy and efficiency, the District may enter into State and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

Competition

All procurement transactions paid for from Federal funds or District matching funds shall be conducted in a manner that encourages full and open competition and that is in accordance with good administrative practice and sound business judgment. In order to promote objective contractor performance and eliminate an unfair competitive advantage, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Some of the situations considered to be restrictive of competition include, but are not limited to, the following:

A. unreasonable requirements on firms in order for them to qualify to do business;

B. unnecessary experience and excessive bonding requirements;

In order for sealed bidding to be feasible, the following conditions shall be present:

1. a complete, adequate, and realistic specification or purchase description is available;
2. two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. the procurement lends itself to a firm-fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

When sealed bids are used, the following requirements apply:

1. Bids shall be solicited in accordance with the provisions of State law and Policy 6320. Bids shall be solicited from an adequate number of qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
2. The invitation for bids will include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.
3. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
4. A firm-fixed-price contract award will be made in writing to the lowest responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
5. The Board reserves the right to reject any or all bids for sound documented reason.

D. Competitive Proposals

Procurement by competitive proposal, normally conducted with more than one source submitting an offer, is generally used when conditions are not appropriate for the use of sealed bids or in the case of a recognized exception to the sealed bid method.

If this method is used, the following requirements apply:

1. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.
2. Proposals shall be solicited from an adequate number of sources.
3. The District shall use its written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts shall be awarded to the responsible firm whose proposal is most advantageous to the program, with the price and other factors considered.

   The District may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where the price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E that firms are a potential source to perform the proposed effort.

E. Noncompetitive Proposals

Procurement by noncompetitive proposals allows for solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

1. the item is available only from a single source
2. the public exigency or emergency for the requirement will not permit a delay resulting from competitive

The District maintains the following protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency.

A bidder who wishes to file a bid protest shall file such notice and follow procedures prescribed by the Request For Proposals (RFPs) or the individual bid specifications package, for resolution. Bid protests shall be filed in writing with the Superintendent within seventy- two (72) hours of the opening of the bids in protest.

Within five (5) days of receipt of a protest, the Superintendent shall review the protest as submitted and render a decision regarding the merits of the protest and any impact on the acceptance and rejection of bids submitted. Notice of the filing of a bid protest shall be communicated to the Board and shall be so noted in any subsequent recommendation for the acceptance of bids and awarding of contracts.

Failure to file a notice of intent to protest, or failure to file a formal written protest within the time prescribed, shall constitute a waiver of proceedings.

Maintenance of Procurement Records

The District maintains records sufficient to detail the history of all procurements. These records will include but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price (including a cost or price analysis).

Book	Policy Manual
Section	8000 Operations
Title	FOOD SERVICES
Code	po8500
Status	Active
Adopted	November 11, 2013
Last Revised	August 14, 2017

8500 - **FOOD SERVICES**

The Board of Education shall provide cafeteria facilities in all school facilities where space and facilities permit, and will provide food service for the purchase and consumption of lunch for all students.

The Board shall also provide a breakfast program in accordance with procedures established by the Department of Education.

The Board does not discriminate on the basis of race, color, national origin, sex (including sexual orientation or transgender identity), disability, age (except as authorized by law), religion, military status, ancestry, or genetic information (collectively, "Protected Classes") in its educational programs or activities. Students and all other members of the School District community and third parties are encouraged to promptly report incidents of unlawful discrimination and/or retaliation to a teacher, administrator, supervisor, or other District official so that the Board may address the conduct. See Policy 2260 – Nondiscrimination and Access to Equal Educational Opportunity.

The food-service program shall comply with Federal and State regulations pertaining to the selection, preparation, delivery, consumption, and disposal of food and beverages, including but not limited to the current USDA's school meal pattern requirements for Americans and the USDA Smart Snacks in School nutrition standards as well as to the fiscal management of the program. In addition, as required by law, a food safety program based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service staff and other authorized persons.

Substitutions to the standard meal requirements shall be made, at no additional charge, for students for whom a healthcare provider who has prescriptive authority in the State of Michigan has provided medical certification that the student has a disability which restricts his/her diet, in accordance with the criteria set forth in 7 CFR 15(b). To qualify for such substitutions the medical certification must identify:

A. the student's disability and the major life activity affected by the disability;

B. an explanation of why the disability affects the students diet; and

C. the food(s) to be omitted from the student's diet, and the food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

On a case by case basis, substitutions to the standard meal requirements may be made, at no additional charge, for students who are not "disabled persons", but have a signed statement from a qualified medical authority that the student cannot consume certain food items due to medical or other special dietary needs. To qualify for such consideration and substitutions

The Superintendent will require that the food service program serve foods in District schools that are wholesome and nutritious and reinforce the concepts taught in the classroom.

Title	CONFLICT OF INTEREST
Code	po1130
Status	Active
Adopted	November 11, 2013
Last Revised	November 14, 2016

1130 - **CONFLICT OF INTEREST**

Staff members, officers, and agents shall perform their official duties in a manner free from conflict of interest. To this end:

A. The maintenance of unusually high standards of honesty, integrity, impartiality, and professional conduct by School District's Board members, employees, officers, and agents is essential to ensure the proper performance of school business as well as to earn and keep public confidence in the School District.

   To accomplish this, the Board of Education has adopted the following guidelineswhich apply to all District employees, officers and agents, including members of the Board to assure that conflicts of interest do not occur. These guidelines are not intended to be all inclusive, nor to substitute for good judgment on the part of all employees, officers, and agents.

   1. No employee, officer, or agent shall engage in or have a financial or other interest, directly or indirectly, in any activity that conflicts or raises a reasonable question of conflict with his/her duties and responsibilities in the school system. When a staff member determines that the possibility of a personal interest conflict exists, s/he should, prior to the matter being considered by the Board or administration, disclose his/her interest (such disclosure shall become a matter of record in the minutes of the Board).

   2. No staff member, officer, or agent shall use his/her position to benefit either himself/herself or any other individual or agency apart from the total interest of the School District.

   3. If the financial interest pertains to a proposed contract with the District, the following requirements must be met.

      The staff member, officer, or agent shall disclose the direct pecuniary interest in the contract to the Board with such disclosure made a part of the official Board minutes. If his/her direct pecuniary interest amounts to $250 or more or five percent (5%) or more of the contract cost to the District, the staff member, officer, or agent shall make the disclosure in one (1) of two (2) ways:

      a. In writing, to the Board president at least seven (7) days prior to the meeting at which the vote on the contract will be taken. The disclosure shall be made public in the same manner as the Board's notices of its public meetings. (See Bylaw 0165.)

b. By announcement at a meeting at least seven (7) days prior to the meeting at which a vote on the contract is to be taken. The staff member, officer, or agent must use this method of disclosure if his/her pecuniary interest amounts to $5,000 or more.

4. Employees, officers, and agents shall not engage in business, private practice of their profession, the rendering of services, or the sale of goods of any type where advantage is taken of any professional relationship they may have with any student, client, or parents of such students or clients in the course of their employment or professional relationship with the School District.

   Included, by way of illustration rather than limitation are the following:

   a. the provision of any private lessons or services for a fee

   b. the use, sale, or improper divulging of any privileged information about a student or client gained in the course of the employee's, officer's, or agent's employment or professional relationship with the District through his/her access to School District records

   c. the referral of any student or client for lessons or services to any private business or professional practitioner if there is any expectation of reciprocal referrals, sharing of fees, or other remuneration for such referrals

   d. the requirement of students or clients to purchase any private goods or services provided by an employee, officer, or agent or any business or professional practitioner with whom any employee, officer, or agent has a financial or other relationship, as a condition of receiving any grades, credits, promotions, approvals, or recommendations

5. Employees, officers, and agents shall not make use of materials, equipment, or facilities of the School District in private practice. Examples would be the use of facilities before, during, or after regular business hours for service to private practice clients, or the checking out of items from an instructional materials center for private practice.

B. Should exceptions to this policy be necessary in order to provide services to students or clients of the School District, all such exceptions will be made known to the employee's supervisor and will be disclosed to the Superintendent before entering into any private relationship.

C. Employees, officers, and agents can not participate in the selection, award, or administration of a contract supported by a Federal grant/award if s/he has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his/her immediate family, his/her partner, or an organization which employs or is about to employ any of the parties described in this section, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

   Employees, officers, and agents shall not solicit or accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts involved with Federal grant funds. Employees, officers, and agents may, however, accept a gift of unsolicited items of "nominal value" from a contractor or party to subcontracts that do not involve Federal grant funds. For purposes of this section, "nominal value" means that the gift has a monetary value of $44.00 or less.

D. To the extent that the District has a parent, affiliate or subsidiary organization that is not a State, local government or Indian tribe, the School District may not conduct a procurement action involving the parent, affiliate or subsidiary organization if the School District is unable, or appears to be unable, to be impartial.

E. Employees, officers and agents must disclose any potential conflict of interest which may lead to a violation of this policy to the School District. Upon discovery of any potential conflict of interest, the School District will disclose, in writing, the potential conflict of interest to the appropriate Federal awarding agency or, if applicable, the pass-through entity.

   The District will also disclose, in a timely manner, all violations of Federal criminal law involving fraud, bribery or gratuity that affect a Federal award to the appropriate Federal awarding agency or, if applicable, the pass- through entity.

F. Employees, officers and agents found to be in violation of this conflict of interest policy will be subject to disciplinary action up to and including termination, as permitted by applicable Board policy.

3110 - **CONFLICT OF INTEREST**

Staff members, officers, and agents shall perform their official duties in a manner free from conflict of interest. To this end:

A. The maintenance of unusually high standards of honesty, integrity, impartiality, and professional conduct by School District's Board members, employees, officers, and agents is essential to ensure the proper performance of school business as well as to earn and keep public confidence in the School District.

   To accomplish this, the Board of Education has adopted the following guidelines which apply to all district employees, officers and agents, including members of the Board to assure that conflicts of interest do not occur. These guidelines are not intended to be all inclusive, nor to substitute for good judgment on the part of all employees, officers, and agents.

   1. No employee, officer, or agent shall engage in or have a financial or other interest, directly or indirectly, in any activity that conflicts or raises a reasonable question of conflict with his/her duties and responsibilities in the school system. When a staff member determines that the possibility of a personal interest conflict exists, s/he should, prior to the matter being considered by the Board or administration, disclose his/her interest (such disclosure shall become a matter of record in the minutes of the Board).

   2. No staff member, officer, or agent shall use his/her position to benefit either himself/herself or any other individual or agency apart from the total interest of the School District.

   3. If the financial interest pertains to a proposed contract with the District, the following requirements must be met.

      The staff member, officer, or agent shall disclose the direct financial interest in the contract to the Board with such disclosure made a part of the official Board minutes. If his/her direct financial interest amounts to $250 or more or five percent (5%) or more of the contract cost to the District, the staff member, officer or agent shall make the disclosure in one (1) of two (2) ways:

      a. In writing, to the Board president at least seven (7) days prior to the meeting at which the vote on the contract will be taken. The disclosure shall be made public in the same manner as the Board's notices of its public meetings. (See Bylaw 0165.)

b. By announcement at a meeting at least seven (7) days prior to the meeting at which a vote on the contract is to be taken. The staff member, officer, or agent must use this method of disclosure if his/her financial interest amounts to $5,000 or more.

4. Employees, officers, and agents shall not engage in business, private practice of their profession, the rendering of services, or the sale of goods of any type where advantage is taken of any professional relationship they may have with any student, client, or parents of such students or clients in the course of their employment or professional relationship with the School District.

   Included, by way of illustration rather than limitation are the following:

   a. the provision of any private lessons or services for a fee

   b. the use, sale, or improper divulging of any privileged information about a student or client gained in the course of the employee's, officer's, or agent's employment or professional relationship with the District through his/her access to School District records

   c. the referral of any student or client for lessons or services to any private business or professional practitioner if there is any expectation of reciprocal referrals, sharing of fees, or other remuneration for such referrals

   d. the requirement of students or clients to purchase any private goods or services provided by an employee, officer, agent, or any business or professional practitioner with whom any employee, officer, or agent has a financial or other relationship, as a condition of receiving any grades, credits, promotions, approvals, or recommendations

5. Employees, officers, and agents shall not make use of materials, equipment, or facilities of the School District in private practice. Examples would be the use of facilities before, during, or after regular business hours for service to private practice clients, or the checking out of items from an instructional materials center for private practice.

B. Should exceptions to this policy be necessary in order to provide services to students or clients of the School District, all such exceptions will be made known to the employee's, officer's or agent's supervisor and will be disclosed to the Superintendent before entering into any private relationship.

C. Employees, officers, and agents can not participate in the selection, award, or administration of a contract supported by a Federal grant/award if s/he has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his/her immediate family, his/her partner, or an organization which employs or is about to employ any of the parties described in this section, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

   Employees, officers, and agents shall not solicit or accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts involved with Federal grant funds. Employees, officers, and agents may, however, accept a gift of unsolicited items of "nominal value" from a contractor or party to subcontracts that do not involve Federal grant funds. For purposes of this section, "nominal value" means that the gift has a monetary value of $44.00 or less.

D. To the extent that the District has a parent, affiliate or subsidiary organization that is not a State, local government or Indian tribe, the School District may not conduct a procurement action involving the parent, affiliate or subsidiary organization if the School District is unable, or appears to be unable, to be impartial.

E. Employees, officers and agents must disclose any potential conflict of interest which may lead to a violation of this policy to the School District. Upon discovery of any potential conflict of interest, the School District will disclose, in writing, the potential conflict of interest to the appropriate Federal awarding agency or, if applicable, the pass-through entity.

   The District will also disclose, in a timely manner, all violations of Federal criminal law involving fraud, bribery or gratuity that affect a Federal award to the appropriate Federal awarding agency or, if applicable, the pass-through entity.

F. Employees, officers and agents found to be in violation of this conflict of interest policy will be subject to disciplinary action up to and including termination, as permitted by applicable Board policy.

4110 - **CONFLICT OF INTEREST**

Staff members, officers, and agents shall perform their official duties in a manner free from conflict of interest. To this end:

A. The maintenance of unusually high standards of honesty, integrity, impartiality, and professional conduct by School District's Board members, employees, officers, and agents is essential to ensure the proper performance of school business as well as to earn and keep public confidence in the School District.

   To accomplish this, the Board of Education has adopted the following guidelines which apply to all District employees, officers and agents, including members of the Board to assure that conflicts of interest do not occur. These guidelines are not intended to be all inclusive, nor to substitute for good judgment on the part of all employees, officers, and agents.

   1. No employee, officer, or agent shall engage in or have a financial or other interest, directly or indirectly, in any activity that conflicts or raises a reasonable question of conflict with his/her duties and responsibilities in the school system. When a staff member determines that the possibility of a personal interest conflict exists, s/he should, prior to the matter being considered by the Board or administration, disclose his/her interest (such disclosure shall become a matter of record in the minutes of the Board).

   2. No staff member, officer, or agent shall use his/her position to benefit either himself/herself or any other individual or agency apart from the total interest of the School District.

   3. If the financial interest pertains to a proposed contract with the District, the following requirements must be met.

      The staff member, officer, or agent shall disclose the direct pecuniary interest in the contract to the Board with such disclosure made a part of the official Board minutes. If his/her direct pecuniary interest amounts to $250 or more or five percent (5%) or more of the contract cost to the District, the staff member, officer, or agent shall make the disclosure in one (1) of two (2) ways:

      a. In writing, to the Board president at least seven (7) days prior to the meeting at which the vote on the contract will be taken. The disclosure shall be made public in the same manner as the Board's notices of its public meetings. (See Bylaw 0165.)

b. By announcement at a meeting at least seven (7) days prior to the meeting at which a vote on the contract is to be taken. The staff member, officer, or agent must use this method of disclosure if his/her pecuniary interest amounts to $5,000 or more.

4. Employees, officers, and agents shall not engage in business, private practice of their profession, the rendering of services, or the sale of goods of any type where advantage is taken of any professional relationship they may have with any student, client, or parents of such students or clients in the course of their employment or professional relationship with the School District.

   Included, by way of illustration rather than limitation are the following:

   a. the provision of any private lessons or services for a fee

   b. the use, sale, or improper divulging of any privileged information about a student or client gained in the course of the employee's, officer's, or agent's employment or professional relationship with the District through his/her access to School District records

   c. the referral of any student or client for lessons or services to any private business or professional practitioner if there is any expectation of reciprocal referrals, sharing of fees, or other remuneration for such referrals

   d. the requirement of students or clients to purchase any private goods or services provided by an employee, officer, agent, or any business or professional practitioner with whom any employee, officer, or agent has a financial or other relationship, as a condition of receiving any grades, credits, promotions, approvals, or recommendations

5. Employees, officers, and agents shall not make use of materials, equipment, or facilities of the School District in private practice. Examples would be the use of facilities before, during, or after regular business hours for service to private practice clients, or the checking out of items from an instructional materials center for private practice.

B. Should exceptions to this policy be necessary in order to provide services to students or clients of the School District, all such exceptions will be made known to the employee's, officers, and agents supervisor and will be disclosed to the Superintendent before entering into any private relationship.

C. Employees, officers, and agents can not participate in the selection, award, or administration of a contract supported by a Federal grant/award if s/he has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his/her immediate family, his/her partner, or an organization which employs or is about to employ any of the parties described in this section, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

   Employees, officers, and agents shall not solicit or accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts involved with Federal grant funds. Employees, officers, and agents may, however, accept a gift of unsolicited items of "nominal value" from a contractor or party to subcontracts that do not involve Federal grant funds. For purposes of this section, "nominal value" means that the gift has a monetary value of $44.00 or less.

D. To the extent that the District has a parent, affiliate or subsidiary organization that is not a State, local government or Indian tribe, the School District may not conduct a procurement action involving the parent, affiliate or subsidiary organization if the School District is unable, or appears to be unable, to be impartial.

E. Employees, officers and agents must disclose any potential conflict of interest which may lead to a violation of this policy to the School District. Upon discovery of any potential conflict of interest, the School District will disclose, in writing, the potential conflict of interest to the appropriate Federal awarding agency or, if applicable, the pass-through entity.

   The District will also disclose, in a timely manner, all violations of Federal criminal law involving fraud, bribery or gratuity that affect a Federal award to the appropriate Federal awarding agency or, if applicable, the pass-through entity.

F. Employees, officers and agents found to be in violation of this conflict of interest policy will be subject to disciplinary action up to and including termination, as permitted by applicable Board policy.
